

ASSEMBLE WITH BILT

To assemble your griddle, we recommend scanning and using the BILT App or following along with our assembly video.

QUICK START GUIDE

CURRENT

GETTING STARTED

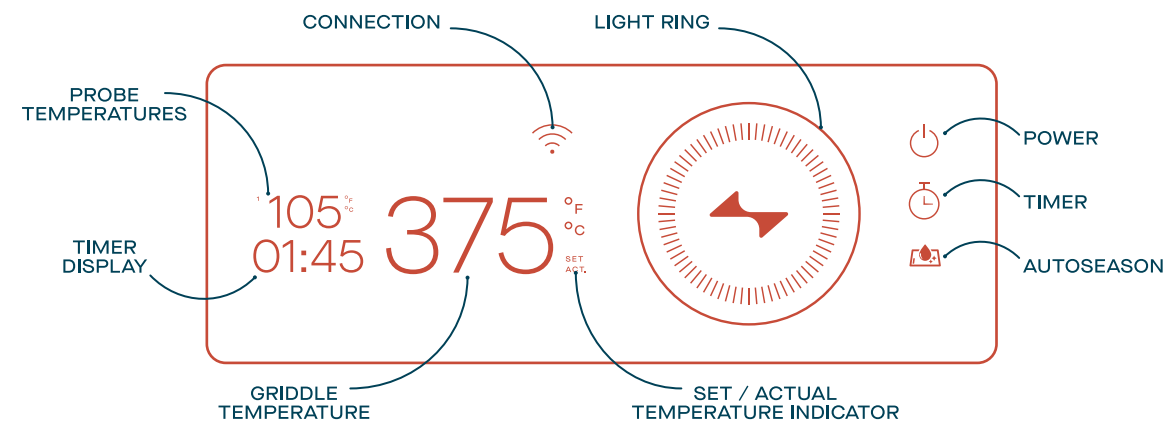

To get started with your griddle download the Current App

FOR BEST RESULTS

A 20 amp breaker and 20 amp GFCI outlet is recommended. For best performance and to prevent tripping, do not plug other appliances or devices into the same circuit as your Current.

KNOW YOUR CONTROLS

Power Button

Turns unit on and off. Short press turns on, 2 second hold to turn off.

Main Control Knob

Controls temperature and timer. Spin left or right to adjust, press in to confirm.

Status Indicator Light Ring

Communicates grill status. See Indicator Guide on the next page.

Timer Icon

Short press turns on the timer section and switches command of the Main Control Knob

Auto Season

2 second press and hold initiates the Auto Seasoning program.

First Use

Before using the griddle, you must season the cooking surface. To do this, pick a high smoke-point oil of your choice, we recommend canola or vegetable oil. Apply a small amount to the griddle surface, and wipe evenly across the surface. Next, power on the griddle by pressing the power button, then press and hold the Auto Season button, then press in the Main Control Knob to confirm. This will start the seasoning process. You may repeat this process until the seasoning is even and to your liking.
